

TC-JBE

Jade Bird

Features

- JADEBIRD
- EN54-21
- Communication Channels: IP / GPRS / Dual Path
- 24 VDC (Supplied by the power plant)
- Supervised inputs for alarms and faults
- Configuration: Remote or local via management software

Specifications

Device Type	Fire Alarm Transmitter (ATE)
Network Protocol	Native integration with Jade Bird buses
Communication Channels	[Version-specific]: IP / GPRS / Dual Path
Power	24 V DC (Supplied by the power plant)
Line Monitoring	Continuous monitoring of the communication link
Inputs/outputs	Monitored inputs for alarm and fault conditions
Configuration	Remote or local via management software
Dimensions (H x W x D)	148 mm x 105 mm x 35 mm
Net Weight	220 g (approximately, without antenna/cables)
Housing Material	Flame-retardant ABS / Metal base (varies by batch)
Mounting Type	Internal DIN rail or screw mounting on the control panel chassis
Degree of IP Protection	IP30 (Designed for use inside a certified enclosure)
